TEACHER GUIDE DRAFT

Leaving Certificate Business (current syllabus)

Social responsibilities of business

Unit 6: Domestic environment
6.6 Ethical business practice, socially responsible business; Unit 1 · 1.1 People in business

A revision lesson. Pupils run a car dealership in firms of four and revise social responsibilities of business on their own deals. Seat each firm together. Each firm answers the topic tasks together.

What pupils do

Every pupil buys and sells cars. In Firm decisions, each role has its own job.

CEO

Staff · Sabotage from Round 2

Finance

Capital & Loans · Investments

Sales & Marketing

Marketing

Operations

Seasonal stock

Topic tasks

Each firm gets its own figures. The method is the same. Your Live screen shows each task and every firm's answer.

1 Which view of firm

Round 1

The board cuts staff training to pay a higher dividend this year.

Which view of the firm does this follow?

- **A** Paternalistic management
- **B** The shareholder view
- **C** Corporate social responsibility
- **D** The stakeholder view

ANSWER

✓ **The shareholder view**

Why: Putting the owners' return above other groups is the shareholder view.

2 Benefits of CSR

Round 1

Your firm pays for road-safety lessons in local schools, though no law asks it to.

Which two benefits are most likely?

- **A** Fewer laws to follow
- **B** A better local reputation
- **C** Lower costs this year
- **D** Higher profit this year
- **E** Easier to recruit staff

ANSWER

✓ **A better local reputation**
✓ **Easier to recruit staff**

Why: CSR costs money now, but wins goodwill with buyers and job seekers.

3 Dividend share

Round 2

Three firms: profit for the year, and the dividends paid.

Order by share of profit paid out, lowest first?

- **A** Profit €150,000, dividends €15,000
- **B** Profit €80,000, dividends €40,000
- **C** Profit €200,000, dividends €50,000

ANSWER

1. **Profit €150,000, dividends €15,000**
2. **Profit €200,000, dividends €50,000**
3. **Profit €80,000, dividends €40,000**

Why: 10%, 25%, 50%: the rest is kept to invest in the firm.

Topic tasks

4 CSR and profit

Round 2

Road-safety lessons in local schools.

Effect on profit? Minus allowed.

Cost of the lessons, a year	**€9,000**
Extra sales from goodwill	**6 cars**
Contribution per car	**€1,900**

ANSWER

€2,400

6 × €1,900 − €9,000 = €2,400

Why: CSR costs money now; goodwill must bring sales to pay for it.

5 Does green pay?

Round 3

A green valeting firm costs €4,500 more a year and wins 4 extra sales, €900 contribution each.

Which choice raises profit on these figures, and why?

A Switch to the green firm

B Keep the current firm

ANSWER

✓ **Keep the current firm**

Why: 4 × €900 = €3,600, under the €4,500 extra cost: on these figures it loses €900 a year.

6 Treat the residents

Round 3

Residents who care about traffic from your new showroom win the council's support.

How should you now treat the residents?

A Consult them closely

B Wait for the council to decide

C Ignore them: they have no say

D Send them a newsletter

ANSWER

✓ **Consult them closely**

Why: Their interest was high; with the council behind them their power is too.

Final questions

Each pupil answers 6 final questions. Pick the question topic “Stakeholders, ethics and the community”: the 6 come from these 10 questions.

Then each pupil writes one short answer: “Evaluate whether CSR raises your firm’s long-run profit.”

1. Who is a stakeholder in a car dealership?
   ✔ **Anyone the business affects: staff, customers, neighbours**

2. A dealer plans late-night deliveries that will wake nearby residents. Whose interests conflict?
   ✔ **The owners’ and the local community’s**

3. A dealer could sell a car with a hidden fault for full price. Why is honesty the better business decision?
   ✔ **Trust brings repeat customers and protects the firm’s name**

4. What does it mean for a business to act ethically?
   ✔ **Doing what is right and fair, not just what is legal**

5. How can a dealership have a positive economic impact on its community?
   ✔ **By creating local jobs and buying from local firms**

6. A dealership switches to recycling waste oil and LED lighting. Which type of impact on the community is this?
   ✔ **Environmental**

7. Shareholders want a bigger dividend and staff want a pay rise, but both cannot happen this year. What should a responsible owner do?
   ✔ **Weigh both groups’ interests and explain the decision openly**

8. Which is a social impact of a dealership on its community?
   ✔ **Sponsoring the local GAA club**

9. A customer, a technician and a bank that lent money: which of them are stakeholders?
   ✔ **All three**

10. A dealer donates €2,000 to a local charity and advertises the donation widely. Which view is a fair criticism?
    ✔ **The motive may be publicity rather than community**
