TEACHER GUIDE

WJEC Eduqas GCSE (9-1) in Business (C510QS)

Stakeholders and ethics

Business activity
Business aims and objectives: stakeholders;
Influences on business: Ethical influence

A revision lesson. Pupils run a car dealership in firms of four and revise stakeholders and ethics on their own deals. Seat each firm together. Each firm answers the topic tasks together.

What pupils do

Every pupil buys and sells cars. In Firm decisions, each role has its own job.

CEO

Staff · Sabotage from Round 2

Finance

Capital & Loans · Investments

Sales & Marketing

Marketing

Operations

Seasonal stock

Topic tasks

Each firm gets its own figures. The method is the same. Your Live screen shows each task and every firm's answer.

1 Closing a branch

Round 1

You close a loss-making branch. Its 10 staff lose their jobs.

Who gains and who loses?

- **A** Suppliers gain, staff lose
- **B** Staff gain, owners lose
- **C** Customers gain, owners lose
- **D** Owners gain, staff lose

ANSWER

✓ Owners gain, staff lose

Why: Cutting a loss raises owners' profit, but the staff lose their income.

2 Who would object

Round 1

You plan to build a bigger showroom on part of a local park.

Which two groups are most likely to object?

- **A** A local environmental group
- **B** Your shareholders
- **C** Your car suppliers
- **D** Your sales staff
- **E** Local residents

ANSWER

✓ A local environmental group
✓ Local residents

Why: Residents and pressure groups lose the park; the firm's own groups gain.

3 Rank fair wage cost

Round 2

Three branches move staff to a fairer wage.

Order by extra cost a week, lowest first?

- **A** 15 staff, £20 more each
- **B** 6 staff, £80 more each
- **C** 10 staff, £40 more each

ANSWER

1. 15 staff, £20 more each
2. 10 staff, £40 more each
3. 6 staff, £80 more each

Why: £300, £400 and £480 a week: the most staff is the lowest cost.

Topic tasks

4 Fair pay cost

Round 2

You raise pay above what rivals pay.

Extra wage cost a year? 52 weeks.

Staff	**12 staff**
Pay now, each, a week	**£470**
Rise, each, a week	**£35**

ANSWER

£21,840

12 × £35 × 52 = £21,840

Why: Fair pay costs more, but staff are more likely to stay.

5 Green or cheaper

Round 3

A green valeting firm costs £300 more a month. Most buyers say the planet matters to them.

Which firm should you use, and why?

A Your current, cheaper firm

B The green valeting firm

ANSWER

✓ The green valeting firm

Why: Your buyers value it, so the green choice can win sales and goodwill worth more than £300.

6 Above-minimum pay

Round 3

You pay staff well above the legal minimum wage, though rivals do not.

Which pair of effects is most likely?

A Higher wage costs, lower turnover

B Lower wage costs, higher turnover

C Lower wage costs, lower turnover

D Higher wage costs, higher turnover

ANSWER

✓ Higher wage costs, lower turnover

Why: Fair pay costs more, but staff are more likely to stay.

Final questions

Each pupil answers 6 final questions on stakeholders and ethics. They come from these 13 questions.

Then each pupil writes one short answer: “Explain why owners and customers may want different things.”

1 What would make vehicle sourcing more ethical?
✔ **Checking suppliers’ labour and environmental practices**

2 Customers increasingly ask how a dealership reduces waste and emissions. This is best described as what influence?
✔ **An environmental influence on business decisions**

3 Residents object to delivery lorries arriving before 6 a.m. Which stakeholder response is most appropriate to consider?
✔ **Discussing quieter delivery times with them**

4 A repair chain claims to use responsibly recycled parts. What action best supports the claim?
✔ **Check suppliers’ evidence that the claim is true**

5 A campaign group criticises the dealership’s disposal of tyres. What is the strongest response?
✔ **Check its records, fix problems, share evidence**

6 Longer opening hours would bring more sales but late noise for residents. What is the best approach?
✔ **Weigh sales against residents’ impact and consult**

7 A cheap supplier cannot show how hazardous waste is handled. What should the CEO consider?
✔ **The legal and reputation risks, not just price**

8 A stakeholder is anyone affected by a business decision. A dealer plans Sunday opening. One side, named for you: customers gain, visiting on a day off. Name the other side.
✔ **Staff lose: they must work a day that was theirs**

9 Before deciding to close the Saturday desk, the CEO lists who is affected: Saturday technicians, Saturday customers and the landlord whose lease sets opening hours. What is this list?
✔ **The stakeholders in the decision**

10 Which group is an internal stakeholder of a car dealership?
✔ **Its employees**

Final questions

11 A dealer plans to keep its workshop open until 10pm. Which stakeholder group is most likely to object?

✔ **Local residents, because of noise late at night**

12 A dealer cuts its staff's pay to raise profit. Which two stakeholder groups now have competing interests?

✔ **Owners and employees**

13 What do a dealer's customers mainly want from it as stakeholders?

✔ **Good-quality cars at fair prices**
