1 Piece rate faults

Round 1

You pay prep staff per car finished, not by the hour. Faults found at handover double.

What best explains the rise in faults?

- **A** Staff have too little to do
- **B** Staff now earn less than before
- **C** Staff want more fringe benefits
- **D** Pay now rewards speed over quality

ANSWER

✓ Pay now rewards speed over quality

Why: Paying per car rewards speed, so staff rush and quality falls.

2 Staff feel ignored

Round 1

A staff survey says pay is fine, but staff feel ignored.

Which two changes should motivate most?

- **A** Ask staff to help set targets
- **B** A 2% pay rise for all
- **C** Closer checks on their work
- **D** Let teams plan their own work
- **E** A bonus for every car sold

ANSWER

✓ Ask staff to help set targets
✓ Let teams plan their own work

Why: Feeling ignored is not about pay: involvement and trust tackle it.

3 Maslow in order

Round 2

Maslow's hierarchy of needs, at your firm.

Put the needs in order, lowest first?

- **A** Safety: a secure contract
- **B** Esteem: praise for good work
- **C** Social: a friendly team
- **D** Physiological: pay for the basics

ANSWER

1. **Physiological: pay for the basics**
2. **Safety: a secure contract**
3. **Social: a friendly team**
4. **Esteem: praise for good work**

Why: Maslow: physiological, safety, social, then esteem, then self-actualisation.

Topic tasks

4 Piece-rate pay

Round 2

Prep staff are paid per car finished.

Her pay this week?

Pay per car prepared	**€16**
Cars she prepared this week	**46 cars**
Extra for each car over 30	**€5**

ANSWER

€816

46 × €16 + 16 × €5 = €816

Why: Piece rate pays for output, so staff work faster, sometimes at the cost of quality.

5 Pay or promotion

Round 3

Sales staff are leaving. Exit interviews say pay is fair, but there is no chance to progress.

What should you offer, and why?

A Training and a clear promotion path

B A higher basic salary

ANSWER

✓ Training and a clear promotion path

Why: Pay is not the problem; a chance to grow and progress meets the need staff named.

6 Maslow: next need

Round 3

A technician has a secure, well-paid job and friends at work, but feels no one values her skill.

Using Maslow, which need should you meet next?

A Social needs

B Esteem needs

C Physiological needs

D Safety needs

ANSWER

✓ Esteem needs

Why: Safety and social needs are met; recognition is an esteem need, which comes next.
