Each firm gets its own figures. The method is the same. Your Live screen shows each task and every firm's answer.

1 Profit from the ad

Round 1

An advert for these cars.

Profit from the advert? Minus if below zero.

The advert costs	**£1,500**
Extra sales from it	**5 cars**
Margin per car	**£1,400**

ANSWER

£5,500

5 × £1,400 − £1,500 = £5,500

Why: 5 extra cars bring £7,000 for a £1,500 advert.

2 Was the ad worth it

Round 1

You ran a local radio advert last month.

Which two best show the advert worked?

- **A** Extra sales from new buyers
- **B** More people heard it
- **C** It cost less than last year's
- **D** Extra profit above its cost
- **E** The advert won an award

ANSWER

✓ Extra sales from new buyers
✓ Extra profit above its cost

Why: An advert pays when its extra sales earn more than it cost.

3 Rank cost per sale

Round 2

Three adverts: what each cost, and the sales it brought.

Order by cost per sale, cheapest first?

- **A** Paper: £600, 4 sales
- **B** Radio: £1,500, 6 sales
- **C** Social: £800, 8 sales

ANSWER

1. Social: £800, 8 sales
2. Paper: £600, 4 sales
3. Radio: £1,500, 6 sales

Why: Cost ÷ sales: £100, £150, £250. The cheapest advert is not the best value.

Topic tasks

4 More profitable ad

Round 2

Pick one of two adverts.

Profit from the more profitable advert?

Radio cost (4 extra cars)	**£3,000**
Social cost (5 extra cars)	**£1,500**
Margin per car	**£1,900**

ANSWER

£8,000

Radio £4,600, social £8,000: £8,000

Why: The cheaper advert is not always the better one.

5 TV or trade paper

Round 3

TV advert: £2,000, 50,000 viewers, few want a car. Car magazine: £800, 5,000 local car buyers.

Which advert should you pick, and why?

A The car magazine

B The TV advert

ANSWER

✔ **The car magazine**

Why: The magazine reaches the people who buy from you, at less cost.

6 Which advert pays

Round 3

Pick one of two adverts.

Profit from the more profitable advert?

Radio cost (24 enquiries)	**£1,250**
Social cost (20 enquiries)	**£2,250**
Enquiries that buy	**1 in 4**
Margin per car	**£1,800**

ANSWER

£9,550

Radio 6 × £1,800 − £1,250 = £9,550; social £6,750

Why: Enquiries are not sales: count the cars that sell.
