Pearson BTEC Level 3 National Certificate in Business (601/7155/8)

Promotion

Unit 2: Developing a Marketing Campaign
C2 Promotion; C3 Campaign budget

A revision lesson. Pupils run a car dealership in firms of four and revise promotion on their own deals. Seat each firm together. Each firm answers the topic tasks together.

What pupils do

Every pupil buys and sells cars. In Firm decisions, each role has its own job.

CEO

Staff · Sabotage from Round 2

Finance

Capital & Loans · Investments

Sales & Marketing

Marketing

Operations

Seasonal stock

Topic tasks

Each firm gets its own figures. The method is the same.

1 Ad return as %

Round 1

Was the advert worth it?

Profit from the advert, as % of its cost?

The advert costs	**£3,500**
Extra sales from it	**7 cars**
Margin per car	**£1,225**

ANSWER

145%

(7 × £1,225 − £3,500) ÷ £3,500 = 145%

Why: Every £1 spent on the advert brought back £2.45.

2 Judge the campaign

Round 1

You must judge an online advert campaign.

Which two measures show its value best?

- **A** Number of likes
- **B** Cost per sale
- **C** How many people saw it
- **D** Number of clicks
- **E** Profit from the sales it brought

ANSWER

✓ Cost per sale
✓ Profit from the sales it brought

Why: Value is in sales and profit; clicks and views do not pay the bills.

3 Return on spend

Round 2

Three campaigns: what each cost, and the contribution it brought.

Order by return on spend, highest first?

- **A** £1,000 spent, brings £1,600
- **B** £2,500 spent, brings £3,500
- **C** £500 spent, brings £1,000

ANSWER

1. **£500 spent, brings £1,000**
2. **£1,000 spent, brings £1,600**
3. **£2,500 spent, brings £3,500**

Why: Return: 100%, 60%, 40%. The biggest profit in pounds has the lowest return.

Topic tasks

4 Enquiries to profit

Round 2

Enquiries from an advert.

Profit from the advert?

The advert costs	**£3,475**
Enquiries it brings	**30 plain**
Conversion rate	**20%**
Margin per car	**£1,830**

ANSWER

£7,505

20% × 30 = 6; 6 × £1,830 – £3,475 = £7,505

Why: A 20% conversion turns 30 enquiries into 6 sales.

5 Answer a price cut

Round 3

Your firm is known for the best service in town. A rival cuts its prices by 10%.

How should you respond, and why?

A Promote your service, keep prices

B Match the 10% price cut

ANSWER

✔ Promote your service, keep prices

Why: A price war cuts every margin; promoting what makes you different keeps loyal buyers.

6 Best advert return

Round 3

Which pays back more?

Higher of the two: profit as % of cost?

Radio advert, 70 enquiries	**£4,500**
Social advert, 40 enquiries	**£4,500**
Conversion rate	**10%**
Margin per car	**£2,025**

ANSWER

215%

Radio 215%, social 80%

Why: Compare return on spend, not just profit.

Final questions

Each pupil answers 6 final questions on promotion. They come from these 8 questions.

1 Customers choose a dealer over a cheaper rival because of its well-known name, logo and long reputation, not any one feature. What is this?

✔ **Its brand**

2 A £6,000 social media campaign brings 240 enquiries. What is the cost per enquiry?

✔ **£25**

3 A promotion budget of £36,000 is split 45% digital, 30% local radio and the rest events. How much goes to events?

✔ **£9,000**

4 A campaign cost £15,000 and led to 60 extra sales at £400 profit each. What is the campaign's net return?

✔ **£9,000**

5 A dealer offers a free first service with every used car bought this month. Which promotional method is this?

✔ **Sales promotion**

6 A dealer's open day is reported free of charge by the local newspaper. Which element of the promotional mix produced this?

✔ **Public relations**

7 A dealer sells wheelchair-accessible vehicles across the whole UK. Which promotion gives the best reach for the budget?

✔ **Targeted online adverts to people searching for them**

8 A dealer group has just rebranded. Its first campaign aims to make people recognise the new name. Which promotional objective is this?

✔ **Raising awareness**
